

ACCOUNTS FROM INCOMPLETE RECORDS

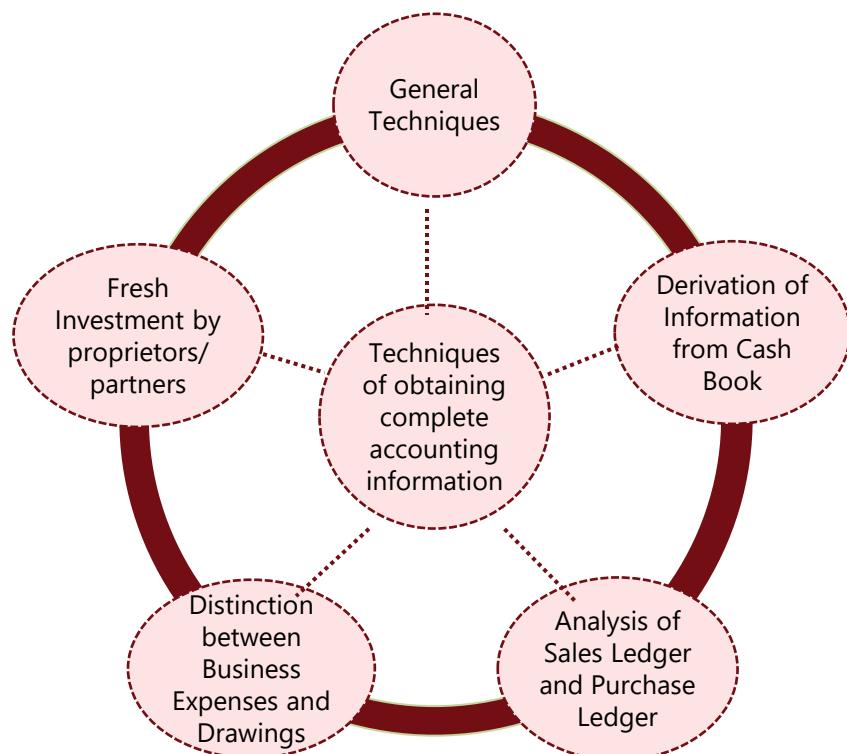

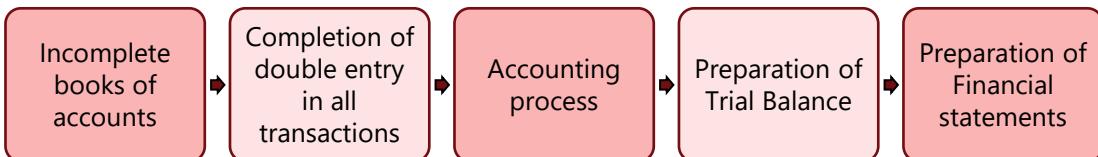

LEARNING OUTCOMES

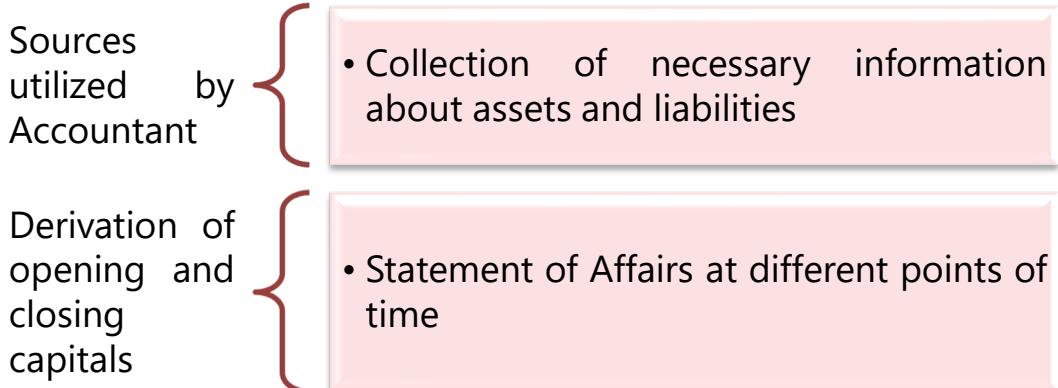

After studying this Chapter, you would be able to:

- ◆ Learn how to derive capitals at two different points of time through statement of affairs.
- ◆ Learn the technique of determining profit by comparing capital at two different points of time.
- ◆ Prepare Trading and Profit and Loss Account and Balance Sheet from incomplete records.

CHAPTER OVERVIEW

- Definition of Single Entry System and its features
- Types of Single entry system
- Determination of profit by comparing capitals at different points of time
- Statement of Affairs and its comparison with Balance sheet
- Technique of obtaining complete information for preparation of financial statements

1. INTRODUCTION

Very often small sole proprietorship and partnership businesses do not maintain double entry book keeping. There might be reasons like lack of knowledge of accounting, or the business is small and they do not wish to spend time or effort in maintaining the accounting records. As such, they might keep a record of the cash transactions and credit transactions only. But at the end of the accounting period, they will want to know the performance and financial position of their businesses. Think of a grocery-vendor who sells vegetables on a street or runs a small shop. Is he expected to learn accounting formally? No, he is only looking at keeping a record of a few items including:

- What amount is he supposed to pay for items purchased on credit from his supplier?
- What cash has he collected by selling those vegetables?
- In case he runs a shop, how much amount has he paid for rent or electricity expenses?
- In case he sells some items on credit, how much is he supposed to receive from that customer?

There might be other reasons for incomplete records such as:

- Accounting records are destroyed by accident, such as fire;
- Some essential figure is unknown and must be calculated as a balancing figure (for example, due to inventory being damaged or destroyed).

Every person would like to know the profit generated by the business. What we expect to learn is how to use those records to arrive at the profit or loss earned by the business or understand the financial position of that business.

This chapter discusses how to complete the accounts from available incomplete records and addresses the problems faced in a single-entry system.

There is no such formal system as Single-Entry System as the accounts can only be prepared using Double Entry System. It might be appropriate to mention that a single-entry system is truly a system of incomplete or improper records.

The way “**Single Entry System**” operates is that for some transactions the book-keepers complete entries and for some others they complete just one aspect of the transaction. In fact, for some other transactions, they even do not pass any entry. The task of the accountant is to establish link among the available information and to finalize these accounts.

Normally, the businessmen keep a record of cash receipts and cash payments and personal accounts (receivables, payables, capital etc.) Also, information from bank statement (withdrawals, deposits) is easily available as well.

Features of Single Entry System

- It is an inaccurate, unscientific and unsystematic method of recording business transactions.
- There is generally no record of real and nominal accounts and, in most of the cases; a record is kept for cash transactions and personal accounts.
- Cash book mixes up business and personal transactions of the owners.
- There is no uniformity in maintaining the records and the system may differ from firm to firm depending on the requirements and convenience of each firm.
- Profit under this system is only an estimate based on available information and therefore true and correct profits cannot be determined. The same is the case with the financial position in the absence of a proper balance sheet.

2. TYPES OF SINGLE ENTRY SYSTEM

A scrutiny of many procedures adopted in maintaining records under single entry system brings forth the existence of following three types:

- (i) **Pure single entry:** In this, only personal accounts are maintained with the result that no information is available in respect of cash and bank balances, sales and purchases, etc. In view of its failure to provide even the basic information regarding cash etc., this method exists only on paper and has no practical application.
- (ii) **Simple single entry:** In this, only: (a) personal accounts, and (b) cash book are maintained. Although these accounts are kept on the basis of double entry system, postings from cash book are made only to personal accounts with no other account to be found in the ledger. Cash received from debtors or cash paid to creditors is simply noted on the bills issued or received as the case may be.

For example, M/s Small shop runs a retail shop. It keeps a register of amount receivable from people for items sold (bread, butter, milk etc). as under:

Mr. A – ₹ 300

Mr. B – ₹ 450

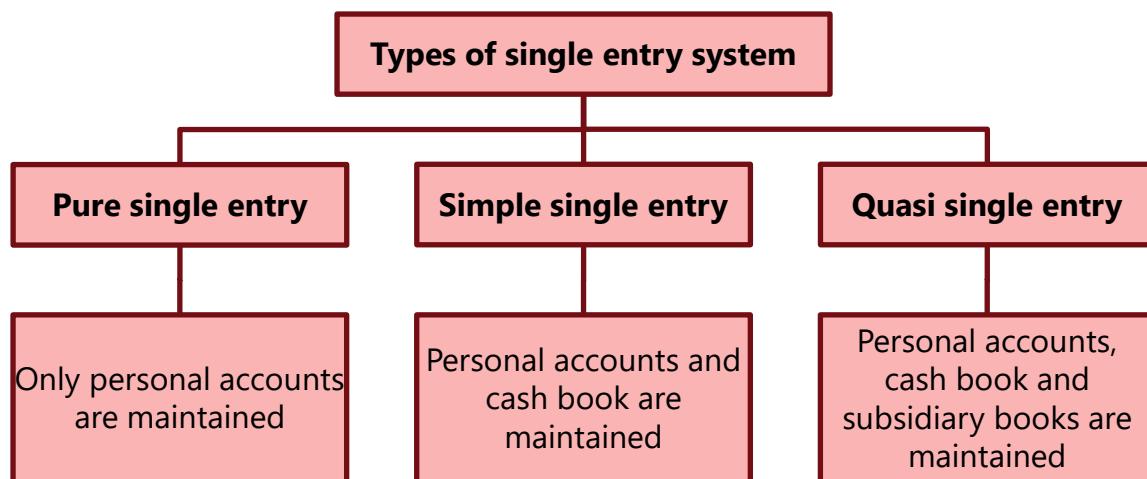

Mr. C – ₹ 260.

The business does not maintain a record of what item has been sold. It is only concerned about the amount receivable (personal account balance) from its customers.

- (iii) **Quasi single entry:** In this: (a) personal accounts, (b) cash book, and (c) some subsidiary books are maintained. The main subsidiary books kept under this system are Sales book, Purchases book and Bills book. No separate record is maintained for discounts, which are entered into the personal accounts. In addition, some scattered information is also available in respect of few important items of expenses like wages, rent, rates, etc. In fact, this is the method which is generally adopted as a substitute for double entry system.

Some businesses may also maintain additional records like Bills book or Sales book. This might be required for tax or other purposes. For example, a shop selling t-shirts may want to issue a bill to each customer for the sales made to them. This will help them validate any returns of goods within reasonable time. In addition, they may keep a purchase book to record all purchases.

Also, organisations employing workers keep records of cash wages paid and take acceptance from the workers for the amount paid to them.

3. ASCERTAINMENT OF PROFIT BY CAPITAL COMPARISON

This method is also known as **Net Worth method or Statement of Affairs Method.**

Net Worth method or Statement of Affairs Method.

If detailed information regarding revenue and expenses is not known, it becomes difficult to prepare profit and loss account. Instead by collecting information about assets and liabilities, it is easier to prepare balance sheet at two different points of time. So, while preparing accounts from incomplete records, if sufficient information is not available, it is better to follow the method of capital comparison to arrive at the profit/loss for the current year.

3.1 Methods of Capital Comparison

Closing capital increases if there is profit, while it reduces if there is loss incurred during the year. However, if the proprietor/partners make fresh investments in the business, capital increases; and any withdrawal made by them, decreases the capital.

The following points shall be considered while computing the profit/loss under capital comparison method-

Particulars	₹
Capital at the end (a)	<u>XX</u>
Add: Drawings	XX
Less: Fresh capital introduced	XX
Capital at the beginning (b)	<u>XX</u>
Profit (a-b)	<u><u>XX</u></u>

ILLUSTRATION 1

Raju does not maintain proper records of his business. However, he provides the following information:

Opening capital	10,000
Closing capital	12,500

<i>Drawings during the year</i>	3,000
<i>Capital added during the year</i>	3,750

You are required to calculate the profit or loss for the year.

SOLUTION

Computation of Profit or Loss during the year		₹
Closing Capital	12,500	
Add: Drawings during the year	<u>3,000</u>	
	15,500	
Less: Additional capital during the year	(3,750)	
Less: opening capital	(10,000)	
Net Profit for the year	1,750	

ALTERNATIVELY

Profit/Loss can also be ascertained as balancing figure by preparing capital account as follows:

Particulars	₹	Particulars	₹
To drawings	3,000	By Balance b/d	10,000
To Balance c/d	12,500	By additional capital	3,750
		By Net Profit (Bal Fig)	1,750
	15,500		15,500

It is clear from the above discussion that to follow the capital comparison method, one should know the opening capital and closing capital. This should be determined by preparing statement of affairs at the two respective points of time.

Capital = Assets (-) Liabilities.

Thus, the preparation of statement of affairs will require listing of assets and liabilities and their amount. The accountant utilizes the following sources for the purpose of finding out the assets and liabilities of a business enterprise:

- (i) Cash book for cash balance
 - (ii) Bank pass book for bank balance
 - (iii) Personal ledger for debtors and creditors
 - (iv) Inventory by actual counting and valuation.

- (v) As regards fixed assets, he prepares a list of them. The proprietor would help him by disclosing the original cost and date of purchase. After deducting reasonable amount of depreciation, the written down value would be included in the Statement of Affairs.

After obtaining all necessary information about assets and liabilities, the next task of the accountant is to prepare statement of affairs at two different points in time.

The design of the statement of affairs is just like balance sheet as given below:

Statement of affairs as on.....

Liabilities	₹	Assets	₹
Capital (Bal. Fig.)	xx	Building	xx
Loans, Bank overdraft	xx	Machinery	xx
Sundry creditors	xx	Furniture	xx
Bills payable	xx	Inventory	xx
Outstanding expenses		Sundry debtors	xx
		Bills receivable	xx
		Loans and advances	xx
		Cash and bank	xx
		Prepaid expenses	xx
	xx		xx

Now from the statement of affairs prepared at two different dates, the opening and closing capital balances can be obtained.

ILLUSTRATION 2

Rakesh started his business on 1st of April 2021. He invested a capital of Rs 1,00,000. On 31st March 2022, he has the following information available as per the Single-entry system maintained by him.

	₹
Cash balance (counted)	3,200
Inventory (physically verified)	34,800
Receivable from Ajay against credit sales	31,000
Machine	85,000
Payable to Vinod towards credit purchase	12,000

<i>Loan taken from Bank</i>	10,000
<i>Drawings made during the year</i>	24,000

You are required to calculate the profit or loss earned by Rakesh for the year ended 31st March 2022.

SOLUTION

Statement of Affairs as on 31st March, 2022

Liabilities	Amount	Assets	Amount
Sundry Creditors	12,000	Cash balance	3,200
Loan from bank	10,000	Inventory	34,800
Capital (Bal fig)	1,32,000	Sundry Debtors	31,000
		Machine	85,000
	1,54,000		1,54,000

Statement of profit or loss for the year ended 31st March, 2022

Capital as at 31st March 2022	1,32,000
Add: Drawings made during the year	<u>24,000</u>
Total	1,56,000
Less: Opening Capital as at 1st April 2021	(1,00,000)
Profit for the year ended 31st March 2022	56,000

3.2 Difference between Statement of Affairs and Balance Sheet

Basis	Statement of affairs	Balance sheet
Source	It is prepared on the basis of transactions partly recorded under the double entry book keeping and partly under the single entry. Most of the assets are recorded based on the estimates, assumptions, information gathered from memory rather from the records.	It is based on transactions recorded strictly on the basis of double entry book keeping; each item in the balance sheet can be verified from the relevant subsidiary books, ledger and documentary evidences.
Capital	In this statement, capital is merely a balancing figure	Capital is derived from the capital account in the ledger and therefore the total of

	being excess of assets over liabilities. Hence assets need not be equal to liabilities.	assets side will always be equal to the total of liabilities side.
Omission	Since this statement is prepared from incomplete records, it is very difficult, to identify and record those assets and liabilities, if omitted from the books.	There is no possibility of omission of any item of asset and liability since all items are properly recorded. Moreover, it is easy to locate the missing items since the balance sheet will not agree.
Basis of Valuation	The valuation of assets is generally done in an arbitrary manner; therefore, no method of valuation is disclosed.	The valuation of assets is done on scientific basis, fixed assets are shown at the original costs less depreciation till date. Any change in the method of valuation is properly disclosed.
Objective	The objective of preparing this statement is to identify the capital figures in the beginning and at the end of the accounting period respectively.	The objective of preparing the balance sheet is to ascertain the financial position on a particular date.

3.3 Preparation of Statement of Affairs and Determination of Profit

It has been discussed in Para 3.1 that figures of assets and liabilities should be collected for preparation of statement of affairs. Given below an example:

ILLUSTRATION 3

Assets and Liabilities of Mr. X as on 31-03-2021 and 31-03-2022 are as follows:

	31-03-2021	31-03-2022
	₹	₹
Assets		
Building	1,00,000	?
Furniture	50,000	?
Inventory	1,20,000	2,70,000
Sundry debtors	40,000	90,000
Cash at bank	70,000	85,000

<i>Cash in hand</i>	1,200	3,200
<i>Liabilities</i>		
<i>Loans</i>	1,00,000	80,000
<i>Sundry creditors</i>	40,000	70,000

Decided to depreciate building by 2.5% p.a. and furniture by 10% p.a. One Life Insurance Policy of the Proprietor was matured during the period and the amount ₹ 40,000 is retained in the business. Proprietor took @ ₹ 2,000 p.m. for meeting family expenses.

Prepare Statement of Affairs as on 31-03-2021 and 31-03-2022.

SOLUTION

Mr. X

Statement of Affairs as on 31-03-2021 & 31-03-2022

Liabilities	31-03-2021	31-03-2022	Assets	31-03-2021	31-03-2022
	₹	₹		₹	₹
Capital	2,41,200	4,40,700	Building	1,00,000	97,500
Loans	1,00,000	80,000	Furniture	50,000	45,000
Sundry creditors	40,000	70,000	Inventory	1,20,000	2,70,000
			Sundry debtors	40,000	90,000
			Cash at bank	70,000	85,000
			Cash in hand	1,200	3,200
	3,81,200	5,90,700		3,81,200	5,90,700

ILLUSTRATION 4

Take figures given in Illustration 4. Find out profit of Mr. X for the year ended 31-03-2022.

SOLUTION

Determination of Profit by applying the method of the capital comparison

	₹
Capital Balance as on 31-03-2022	4,40,700
Less: Fresh capital introduced	(40,000)
	4,00,700

Add: Drawings ($\text{₹ } 2000 \times 12$)	24,000
	4,24,700
Less: Capital Balance as on 31-03-2021	(2,41,200)
Profit	1,83,500

Note:

- Closing capital is increased due to fresh capital introduction, so it is deducted.
- Closing capital was reduced due to withdrawal by proprietor; so it is added back.

ALTERNATIVELY

Capital account can be prepared as follows:

Particulars	₹	Particulars	₹
To drawings	24,000	By Balance b/d	2,41,200
To Balance c/d	4,40,700	By additional capital	40,000
		By Net Profit (Bal Fig)	1,83,500
	4,64,700		4,64,700

ILLUSTRATION 5

The Income Tax Officer, on assessing the income of Shri Moti for the financial years 2020-2021 and 2021-2022 feels that Shri Moti has not disclosed the full income. He gives you the following particulars of assets and liabilities of Shri Moti as on 1st April, 2020 and 1st April, 2022.

			₹
1-4-2020	Assets :	Cash in hand	25,500
		Inventory	56,000
		Sundry debtors	41,500
		Land and Building	1,90,000
		Wife's Jewellery	75,000
	Liabilities :	Owing to Moti's Brother	40,000
		Sundry creditors	35,000
1-4-2022	Assets :	Cash in hand	16,000
		Inventory	91,500
		Sundry debtors	52,500

	<i>Land and Building</i>	1,90,000
	<i>Motor Car</i>	1,25,000
	<i>Wife's Jewellery</i>	1,25,000
	<i>Loan to Moti's Brother</i>	20,000
<i>Liabilities :</i>	<i>Sundry creditors</i>	55,000

During the two years the domestic expenditure was ₹ 4,000 p.m. The declared incomes of the financial years were ₹ 1,05,000 for 2020-2021 and ₹ 1,23,000 for 2021-2022 respectively.

State whether the Income-tax Officer's contention is correct. Explain by giving your workings.

SOLUTION

Calculation of Capital of Shri Moti

	₹	1-4-2020₹	₹	1-4-2022₹
Assets				
Cash in hand		25,500		16,000
Inventory		56,000		91,500
Sundry debtors		41,500		52,500
Land & Building		1,90,000		1,90,000
Wife's Jewellery		75,000		1,25,000
Motor Car		—		1,25,000
Loan to Moti's Brother		—		20,000
		3,88,000		6,20,000
Liabilities:				
Owing to Moti's Brother	40,000		—	
Sundry creditors	35,000	75,000	55,000	55,000
Capital		3,13,000		5,65,000
Income during the two years:				
Capital as on 1-4-2022				5,65,000
Add: Drawings – Domestic Expenses for the two years (₹ 4,000 × 24 months)				96,000
				6,61,000

Less: Capital as on 1-4-2020	(3,13,000)
Income earned in 2020-2021 and 2021-2022	3,48,000
Income declared (₹ 1,05,000 + ₹ 1,23,000)	2,28,000
Suppressed Income	1,20,000

The Income-tax officer's contention that Shri Moti has not declared his true income is correct. Shri Moti's true income is in excess of the disclosed income by ₹ 1,20,000 based on the information available.

4. TECHNIQUES OF OBTAINING COMPLETE ACCOUNTING INFORMATION

When books of accounts are incomplete, it is essential to complete double entry in respect of all transactions. The whole accounting process should be carefully followed and Trial Balance should be drawn up.

4.1 General Techniques

Where the accounts of a business are incomplete, it is advisable to convert them first to the double entry system and then to draw up the Profit and Loss Account and the Balance Sheet, instead of determining the amount of profit/loss by preparing the statement of affairs. As books of accounts of different firms being incomplete in varying degrees, it is not possible to suggest a formula which could uniformly be applied for preparing final accounts therefrom. As a general rule, it is essential to first start the ledger accounts with the opening balances of assets, liabilities and the capital. Afterwards, each book of original entry should be separately dealt with, so as to complete the double entry by posting into the ledger all entries which have not been posted. For example, If only personal accounts have been posted from the Cash Book, debits and credits pertaining to nominal accounts and real accounts that are not posted, should be posted into the ledger. If there are Discount Columns in the Cash Book, the totals of discounts paid and received should be posted to Discounts Allowed and Discounts Received Accounts respectively, for completing the double entry.

Afterwards, the other subsidiary books, i.e., Purchases Day Book, Sales Day Book, Purchase Return Book, Sales Return Book, Bills Receivable and Bills Payable, etc. should be totaled up and their totals posted into the ledger to the debit or credit of the appropriate nominal or real accounts, as the personal aspect of the transactions have been posted already.

When an Accountant is engaged in posting the unposted items from the Cash Book and other subsidiary books, he may be confronted with a number of problems. The manner in which some of them may be dealt with is described below:

- (1) In the Cash Book, there can be several receipt entries which have no connection with the business but which belong to the proprietor, e.g., interest collected on his private investment, legacies received by him, amount contributed by the proprietor from his private resources, etc. All those amounts should be credited to his capital account. Also the Cash Book may contain entries in respect of payments for proprietor's purchases and his personal expenses. All such items should be taken to his capital account on the debit side as drawings.
- (2) Amounts belonging to the business after collection may have been directly utilised for acquiring business assets or for meeting certain expenses instead of being recorded in the Cash Book. On the other hand, the proprietor may have met some of the business expenses from his private resources. In that case, the appropriate asset or expense account should be debited and the source of obtaining funds to be credited.
- (3) If cash is short, because the proprietor had withdrawn amount without any entry having been made in the cash book the proprietor's capital account should be debited. In fact, it will be necessary to debit or credit the proprietor's capital account in respect of all unidentified amounts which cannot be adjusted anywhere else.
- (4) Where the benefit of an item of an expense is received both by the proprietor and business, then it should be allocated between the two on some equitable basis e.g. rent of premises when the proprietor lives in the same premises, should be allocated on the basis of the area occupied by him for residence.

In the end, it will be possible to draw a Trial Balance. Students are advised to prepare a Trial balance as it will bring out any mistakes committed while making the above adjustments.

4.2 Derivation of Information from Cash Book

The analysis of cash as well as bank receipts and payments, should be extensive but under significant heads, so that various items of income and expenditure can be posted therefrom into the ledger. However before posting the information into the ledger the same should be collected in the form of an account, the specimen whereof is shown below:

Cash and Bank Summary Account for the year ended (assumed figures)

	Cash	Bank		Cash	Bank
To Balance in hand	₹ 590	₹ 7,400	By Expenses	₹ 3,000	-

(opening)			(Sundry payments)		
To Sales	6,500	-	By Purchases	100	6,000
To Collection from Debtors	-	10,000	By Sundry creditors	-	5,000
			By Drawings	1,500	-
			By Petty expenses	800	-
			By Rent	-	1,000
			By Electricity and water	350	-
			By Repairs	350	-
			By Wages	-	1,000
			By Balance in Hand	990	4,400
	7,090	17,400		7,090	17,400

The important point about incomplete records is that much of the information may not be readily available and that the relevant information has to be ascertained. A good point is to prepare Cash and Bank Summary (if not available in proper form with both sides tallied). The cash and bank balance at the end should be reconciled with the cash and bank books. Having done so, the various items detailed on the Summary Statements, should be posted into the ledger.

It is quite likely that some of the missing information will then be available. Consider the following about a firm relating to 31st March 2022.

	₹
Cash Balance on 1st April, 2021	250
Bank overdraft on 1st April, 2021	5,400
Cash purchases	3,000
Collection from Sundry debtors	45,600
Sale of old furniture	750
Purchase of Machinery	12,000
Payment of Sundry creditors	26,370
Expenses	8,450
Fresh Capital brought in	5,000
Drawings	3,230
Cash Balance on 31st March, 2022	310
Bank balance on 31st March, 2022	1,180

Now prepare the cash and Bank Summary.

Cash and Bank Summary

Dr.	₹		₹Cr.
Cash Balance on 1-4-2021	250	Bank overdraft on 1-4-2021	5,400
Collection from Sundry debtors	45,600	Cash purchases	3,000
Sale of old furniture	750	Purchase of Machinery	12,000
Fresh Capital brought in	5,000	Payment to Sundry creditors	26,370
Balancing figure- (Cash sales)	8,340	Expenses	8,450
		Drawings	3,230
		Cash balance on 31-03-2022	310
		Bank balance on 31-03-2022	1,180
	59,940		59,940

See that debit side is short by ₹ 8,340. What may be the possible source of cash inflow? It can be cash sales.

4.3 Analysis of Sales Ledger and Purchase Ledger

Sales Ledger: It would disclose information pertaining to the opening balances of debtors, transactions made with them during the year such as goods sold to them on credit, bills receivable drawn on them, bills dishonored, if any; cash received from them, sales returns, discount, rebate or any other concession allowed to them, receipts of bills receivable, bad debts written off and transfers. Journal entries must be made by debiting or crediting the impersonal accounts concerned with contra credit or debit given to total debtors account.

Analysis of Sales Ledger of the year

Op. Customer Balance	Sales	Bills Disho- nored	Total Debits	Cash Recd.	Dis- counts Allw.	Bills Recd.	Sales Returns	Bad Debts	Total Credit	Balance (cl.)

From the aforementioned, it will be possible to build up information about sales and other accounts which can then be posted in totals, if so desired. It would also be possible to prepare Total Debtors

Account in the following form:

Proforma of Total Debtors Account (assumed figures)

	₹		₹
To Opening balance	5,000	By Cash/Bank	10,000
To Sales	38,000	By Discount	500
To Bills dishonoured	280	By Bills receivable	20,000
To Interest	100	By Bad debts	280
	43,380	By Closing balance	12,600
	43,380		43,380

It can be seen from the above format that, if any one figure is not given it can be found out easily as the balancing figure. It can be opening balance, credit sales, cash collected or closing balance etc. For instance, if the information about sales is not available it could be ascertained as the balancing figure, i.e., in the total Debtors Account given above, if all other figures are given, amount of sales on credit basis can be easily ascertained.

ILLUSTRATION 6

Calculate the bad debts from the below information:

Opening balance of Debtors	₹ 5,00,000
Closing balance of Debtors	₹ 7,00,000
Amount received in Cash	₹ 6,00,000
Discount allowed	₹ 10,000
Credit Sales	₹ 11,40,000
Bills Receivable	₹ 3,00,000
Bad Debts	???

SOLUTION

Debtors Account

Particulars	Amount	Particulars	Amount
Balance b/f	5,00,000	Cash A/c	6,00,000
Credit Sales	11,40,000	Discount allowed	10,000
		Bills Receivable	3,00,000

		Bad Debts (Bal fig)	30,000
		Balance c/f	7,00,000
	16,40,000		16,40,000

Purchases Ledger: Generally speaking, a Purchases Ledger is not as commonly maintained as the Debtors Ledger for it being convenient to make entries in respect of outstanding liabilities at the time they are paid rather than when they are incurred. The information is available in respect of opening balance of the creditors, goods purchased on credit, bills payable accepted, bills payable dishonored; cash paid to the creditors during the year, discount and other concessions obtained, returns outwards and transfers. Here also, journal entries must be made by debiting or crediting the respective impersonal accounts. Contra credit or debit being given to total creditor's account.

From the available information total creditors account can be prepared as follows

Proforma of Total Creditors Account (assumed figures)

	₹		₹
To Cash/bank	25,000	By Opening Balance	10,000
To Purchase Returns	400	By Purchases	30,400
To Bills Payable	8,700	By Bill payable dishonoured	450
To discount received	100		
To Closing Balance	6,650		
	40,850		40,850

If a proper record of return to creditors, discount allowed by them etc., has not been kept, it may not be possible to write up the Total Creditors A/c. In such a case, net credit purchase can be ascertained as follows:

Cash paid to Creditors including on account of bills payable during the period XXX

Closing balance of Creditors and Bills Payable _____ XXX

Total _____ XXX

Less: Opening balance of Creditors and Bills Payable _____ XXX

Net credit purchase during the period _____ XXX

Alternatively

Cash paid to creditors during the period XXX

Add: Bills Payable issued to them	XXX
Closing balance of Creditors	XXX
Less: Opening balance of creditors	<u>XXX</u>
Credit Purchases during the period	<u>XXX</u>

ILLUSTRATION 7

Calculate the credit purchases from the below information:

Opening balance of creditors	₹ 4,00,000
Closing balance of creditors	₹ 5,00,000
Payments made in Cash	₹ 8,50,000
Discount received	₹ 20,000

SOLUTION**Total Creditors Account**

Particulars	Amount	Particulars	Amount
Cash paid	8,50,000	Balance b/d	4,00,000
Discount received	20,000	Credit Purchases (Bal. fig)	<u>9,70,000</u>
Balance c/d	<u>5,00,000</u>		
	<u>13,70,000</u>		<u>13,70,000</u>

Nominal Accounts: It is quite likely that the total expenditure shown by balance of nominal account may contain items of expenditure which do not relate to the year for which accounts are being prepared and, also, there may exist certain items of expenditure incurred but not paid, which have not been included therein. On that account, each and every account should be adjusted in the manner shown below (figures assumed):

	Cash and Particulars	Amount Bank Payment	Paid out of Accrued	Total Private Fund	Pre Payment	Expenses for the period
1	2	3	4	5 (2+3+4)	6	7 (5-6)
Rent & Rates	₹ 2,200	₹ 300	₹ 100	₹ 2,600	₹ 150	₹ 2,450
Salaries	4,500	500	1,000	6,000	250	5,750

Only the amount entered as "expenses for the period" should be posted to the respective nominal accounts. A similar adjustment of nominal accounts in respect of revenue receipt should be made.

Let us continue with the example given in para 4.2. Given some other information, how to compute credit purchase and credit sale is discussed below:

Opening balance (1-4-2021)	₹
Inventory	20,000
Sundry creditors	12,300
Sundry debtors	15,000
Closing Balance (31-03-2022)	
Inventory	15,000
Sundry creditors	13,800
Sundry debtors	25,600
Cash paid to creditors	26,370
Cash received from debtors	45,600
Cash sales	8,340
Cash purchases	3,000
Discount received during the year	1,130
Discount allowed	1,870

What are the purchases for 2021-2022? Let us prepare the Sundry Creditors Account.

Sundry Creditors Account

	₹		₹
To Cash	26,370	By Balance b/d	12,300
To Discount (received)	1,130	(opening)	
To Balance c/d (closing)	13,800	By Purchases (balancing figure)	29,000
	41,300		41,300

The credit purchases are ₹ 29,000; cash purchases are ₹ 3,000: hence total purchases are ₹ 32,000.

Likewise prepare the Sundry Debtors Account:

Sundry Debtors Account

	₹		₹
To Balance b/d	15,000	By Cash	45,600
To Credit sales (balancing figure)	58,070	By Discount (allowed)	1,870
	73,070	By Balance c/d	25,600
			73,070

So total sales = credit sales + cash sales

$$= ₹ 58,070 + ₹ 8,340 = ₹ 66,410$$

4.4 Distinction between Business Expenses and Drawings

It has been already stated that often the distinction is not made between business expenses and drawings. While completing accounts from incomplete records, it is necessary to scan the business transactions carefully to identify the existence of drawings.

The main items of drawings are (illustrative):

- Rent of premises commonly used for residential as well as business purposes.
- Common electricity and telephone bills.
- Life insurance premiums of proprietor/partners paid from business cash.
- Household expenses met from business cash.
- Private loan paid to friends and relatives out of business cash.
- Personal gifts made to any friends and relatives out of business cash.
- Goods or services taken from the business for personal consumption.
- Cash withdrawals to meet family expenses.
- Amount collected from debtors directly used for meeting personal expenses.

So it is necessary to scan the summary of cash transactions, business resources and their utilization to assess the nature of drawings and its amount.

4.5 Fresh Investment by proprietors / partners

Like drawings, often fresh investments made by proprietors' /partners are not readily identifiable. It becomes necessary to scan the business transactions carefully. Apart from direct cash investment, fresh investments may take the following shape:

- Money collected and put in the business on maturity of Life Insurance Policy of the proprietors.
- Interest and dividend of personal investment of the proprietors collected and put in the business.
- Income from non-business property collected and put in the business.
- Payments made to creditors out of personal cash.

Unless these items are properly identified and segregated, business income will be affected and proper statement of affairs cannot be prepared.

ILLUSTRATION 8

A. Adamjee keeps his books on single entry basis. The analysis of the cash book for the year ended on 31st March, 2022 is given below:

Receipts	₹	Payments	₹
Bank Balance as on 1st April, 2021	2,800	Payments to Sundry creditors	35,000
Received from Sundry Debtors	48,000	Salaries	6,500
Cash Sales	11,000	General expenses	2,500
Capital brought during the year	6,000	Rent and Taxes	1,500
Interest on Investments	200	Drawings	3,600
		Cash purchases	12,000
		Balance at Bank on 31st March, 2022	6,400
	<u>68,000</u>	Cash in hand on 31st March, 2022	<u>500</u>
			<u>68,000</u>

Particulars of other assets and liabilities are as follows:

	1st April, 2021	31st March, 2022
Sundry debtors	14,500	17,600
Sundry creditors	5,800	7,900
Machinery	7,500	7,500
Furniture	1,200	1,200
Inventory	3,900	5,700
Investments	5,000	5,000

Prepare final accounts for the year ending 31st March, 2022 after providing depreciation at 10 per cent on machinery and furniture and ₹ 800 against doubtful debts.

ILLUSTRATION 10

Mr. Anup runs a wholesale business where in all purchases and sales are made on credit. He furnishes the following closing balances:

	31st March 2021	31st March 2022
Sundry debtors	70,000	92,000
Bills receivable	15,000	6,000
Bills payable	12,000	14,000
Sundry creditors	40,000	56,000
Inventory	1,10,000	1,90,000
Bank	90,000	87,000
Cash	5,200	5,300

Summary of cash transactions during the year 2021- 2022:

(i) Deposited to bank after payment of shop expenses @ ₹ 600 p.m., salary @ ₹ 9,200 p.m. and personal expenses @ ₹ 1,400 p.m. ₹ 7,62,750.

- (ii) Cash Withdrawn from bank ₹ 1,21,000.
- (iii) Cash payment to suppliers ₹ 77,200 for supplies and ₹ 25,000 for furniture.
- (iv) Cheques collected from customers but dishonoured ₹ 5,700.
- (v) Bills discounted ₹ 20,000, discount ₹ 750.
- (vi) Bills matured and duly collected ₹ 16,000.
- (vii) Paid suppliers by cheque ₹ 3,20,000.
- (viii) Received ₹ 20,000 on maturity of one LIC policy of the proprietor by cheque.
- (ix) Rent received ₹ 14,000 by cheque for the premises owned by proprietor.
- (x) A building was purchased on 30-11-2021 for opening a branch for ₹ 3,50,000 via cheque and some expenses were incurred on this building, details of which are not maintained.
- (xi) Electricity and telephone bills paid by cash ₹ 18,700, due ₹ 2,200.

Other transactions:

- (i) Claim against the firm for damage ₹ 1,55,000 is under legal dispute. Legal expenses ₹ 17,000. The firm anticipates defeat in the suit.
- (ii) Goods returned to suppliers ₹ 4,200.
- (iii) Goods returned by customers ₹ 1,200.
- (iv) Discount offered by suppliers ₹ 2,700.
- (v) Discount offered to the customers ₹ 2,400.
- (vi) The business is carried on at the rented premises for an annual rent of ₹ 20,000 which is outstanding at the year end.
- (vii) Bills accepted by customers ₹ 40,000.
- (viii) Bills endorsed ₹ 10,000.
- (ix) Bills accepted ₹ 24,000.

SUMMARY

- Single entry system is generally found in sole trading concerns or even in partnership firms to some extent but never in case of limited liability companies on account of legal requirements.
- There are basically 3 types of single entry systems:
 - Pure Single Entry
 - Simple Single Entry
 - Quasi Single Entry
- Single entry system ignores the concept of duality and therefore, transactions are not recorded in their two-fold aspects.

TEST YOUR KNOWLEDGE

True and False

1. A Trial Balance cannot be drawn up from books kept under Single Entry.
2. Nominal Accounts are kept under Single Entry System.
3. Single Entry System can be adopted by small firms.
4. Profit under single entry system is always correct and accurate.
5. Profits computed under single entry system by different business entities are not comparable.

Multiple Choice Questions

1. In case of net worth method, profit is determined by
 - (a) Preparing a trading and profit and loss account.
 - (b) Comparing the capital in the beginning with the capital at the end of the accounting period.
 - (c) Comparing the net assets in the beginning with the net assets at the end of the accounting period.
2. Single entry system can be followed by
 - (a) Small firms.
 - (b) Joint stock companies.
 - (c) Co-operative societies.
3. Closing capital is calculated as
 - (a) Opening capital +Additional capital -Drawings.
 - (b) Opening capital +Additional capital -Drawings + Profit.
 - (c) Opening capital +Additional capital +Drawings - Profit.
4. Under single entry system, only personal accounts are kept and, in some cases,
 - (a) Cash book is maintained
 - (b) Fixed assets' accounts are maintained
 - (c) Liabilities' accounts are maintained.

5. The closing capital of Mr. B as on 31.3.2022 was ₹4,00,000. On 1.4.2021 his capital was ₹3,50,000. His net profit for the year ended 31.3.2022 was ₹ 1,00,000. He introduced ₹30,000 as additional capital in February, 2022. Find out the amount drawn by Mr. B for his domestic expenses.
- (a) ₹ 1,00,000;
 (b) ₹ 80,000;
 (c) ₹ 1,20,000;
6. Given information:
- | | |
|---------------------------------------|--------|
| Opening capital: | 60,000 |
| Drawings: | 5,000 |
| Capital introduced during the period: | 10,000 |
| Closing capital: | 90,000 |
| Profit earned during the period | ? |
- (a) ₹ 20,000
 (b) ₹ 25,000
 (c) ₹ 30,000.

Theoretical Questions

1. What is meant by Single entry System? What are the types of procedures adopted for this system?
2. Differentiate between Statement of Affairs and Balance Sheet.

Practical Questions

1. A Firm sold 20% of the goods on cash basis and the balance on credit basis. Debtors are allowed 1½ month's credit and their balance as on 31.03.2021 is ₹1,25,000. Assume that the sale is uniform throughout the year. Calculate the credit sales and total sales of the company for the year ended 31.03.2022.
2. Mr. A runs a business of readymade garments. He closes the books of accounts on 31st March. The Balance Sheet as on 31st March, 2021 was as follows:

Liabilities	₹	Assets	₹
A's capital a/c	4,04,000	Furniture	40,000
Creditors	82,000	Stock	2,80,000

		<i>Debtors</i>	1,00,000
		<i>Cash in hand</i>	28,000
		<i>Cash at bank</i>	38,000
	4,86,000		4,86,000

You are furnished with the following information:

- (1) His sales, for the year ended 31st March, 2022 were 20% higher than the sales of previous year, out of which 20% sales was cash sales.
Total sales during the year 2020-21 were ₹ 5,00,000.
- (2) Payments for all the purchases were made by cheques only.
- (3) Goods were sold for cash and credit both. Credit customers pay by cheques only.
- (4) Deprecation on furniture is to be charged 10% p.a.
- (5) Mr. A sent to the bank the collection of the month at the last date of the each month after paying salary of ₹ 2,000 to the clerk, office expenses ₹ 1,200 and personal expenses ₹ 500.

Analysis of bank pass book for the year ending 31st March 2022 disclosed the following:

	₹
<i>Payment to creditors</i>	3,00,000
<i>Payment of rent up to 31st March, 2022</i>	16,000
<i>Cash deposited into the bank during the year</i>	80,000

The following are the balances on 31st March, 2022:

	₹
<i>Stock</i>	1,60,000
<i>Debtors</i>	1,20,000
<i>Creditors for goods</i>	1,46,000

On the evening of 31st March 2022, the cashier absconded with the available cash in the cash book.

You are required to prepare Trading and Profit and Loss A/c for the year ended 31st March, 2022 and Balance Sheet as on that date. All the workings should form part of the answer.

3. Ram carried on business as retail merchant. He has not maintained regular account books. However, he always maintained ₹ 10,000 in cash and deposited the balance into the bank account. He informs you that he has sold goods at profit of 25% on sales.

Following information is given to you:

Assets and Liabilities	As on 1.4.2021	As on 31.3.2022
Cash in Hand	10,000	10,000
Sundry Creditors	40,000	90,000
Cash at Bank	50,000 (Cr.)	80,000 (Dr.)
Sundry Debtors	1,00,000	3,50,000
Stock in Trade	2,80,000	?
Ram's capital	3,00,000	?

Analysis of his bank pass book reveals the following information:

- (a) Payment to creditors ₹ 7,00,000
- (b) Payment for business expenses ₹ 1,20,000
- (c) Receipts from debtors ₹ 7,50,000
- (d) Loan ₹ 1,00,000 taken on 1.10.2021 at 10% per annum
- (e) Cash deposited in the bank ₹ 1,00,000

He informs you that he paid creditors for goods ₹ 20,000 in cash and salaries ₹ 40,000 in cash. He has drawn ₹ 80,000 in cash for personal expenses. During the year Ram had not introduced any additional capital. Surplus cash if any, to be taken as cash sales. All purchases are on credit basis.

You are required to prepare Trading and Profit and Loss Account for the year ended 31.3.2022 and Balance Sheet as at 31st March, 2022.

4. Lucky does not maintain proper books of accounts. However, he maintains a record of his bank transactions and also is able to give the following information from which you are required to prepare his final accounts for the year 2022:

Particulars	1.1.2022 ₹	31.12.2022 ₹
Debtors	1,02,500	—
Creditors	—	46,000
Stock	50,000	62,500

<i>Bank Balance</i>	-	<i>50,000</i>
<i>Fixed Assets</i>	<i>7,500</i>	<i>9,000</i>

Details of his bank transactions were as follows:

	₹
<i>Received from debtors</i>	<i>3,40,000</i>
<i>Additional capital brought in</i>	<i>5,000</i>
<i>Sale of fixed assets (book value ₹ 2,500)</i>	<i>1,750</i>
<i>Paid to creditors</i>	<i>2,80,000</i>
<i>Expenses paid</i>	<i>49,250</i>
<i>Personal drawings</i>	<i>25,000</i>
<i>Purchase of fixed assets</i>	<i>5,000</i>

No cash transactions took place during the year. Goods are sold at cost plus 25%. Cost of goods sold was ₹ 2,60,000

ANSWERS/ SOLUTIONS

True and False

- True: Since incomplete records are maintained, trial balance cannot be prepared
- False: Under the single entry system of bookkeeping, generally cash book and personal accounts of creditors and debtors are maintained, and no other ledger is maintained.
- True: A single entry system is the one where financial transactions are recorded as a single entry in a log and is usually used by new small businesses.
- False: Profit under single entry system is only an estimate based on available information and correct profits cannot be determined.
- True: Since entry system has no fixed set of principles for recording the financial transaction, different organisations maintain records as per their needs. Hence their accounts are not comparable.

Multiple Choice Questions

1.	(b)	2.	(a)	3.	(b)	4.	(a)	5.	(b)	6.	(b)
----	------------	----	------------	----	------------	----	------------	----	------------	----	------------

Theoretical Questions

- Single entry system is an inaccurate and unsystematic method of recording business transactions. The procedures adopted are: Pure single entry; Simple entry and Queasy single entry. For details, Refer Para 1 and 2 of the chapter.
- To understand the difference between Statement of Affairs and Balance Sheet, refer para 3.2 of the chapter.

Practical Questions

- Calculation of Credit Sales and Total sales

$$\begin{aligned}\text{Credit Sales for the year ended 2021-22} &= \text{Debtors} \times \frac{12 \text{ months}}{1.5 \text{ months}} \\ &= ₹1,25,000 \times \frac{12 \text{ months}}{1.5 \text{ months}} \\ &= ₹ 10,00,000\end{aligned}$$

$$\begin{aligned}\text{Total sales for the year ended 2021-22} &= \text{Credit sales} \times \frac{100\%}{80\%} \\ &= ₹ 10,00,000 \times \frac{100\%}{80\%} \\ &= ₹ 12,50,000\end{aligned}$$

- In the books of Mr. A

Trading Account for the year ending 31st March, 2022

Particulars	₹	Particulars	₹
To Opening stock	2,80,000	By Sales (W.N. 3)	
To Purchases (W.N. 1)	3,64,000	Credit	4,80,000
